

AMENDMENT AND RESPONSE UNDER 37 CFR § 1.312

Filing Date: April 20, 2004  
Title: Method and apparatus for translating binary codes

REMARKS

Applicant has carefully reviewed the Claims and has noted a minor error of a grammatical nature in Claim 2 and Claim 14. Because of the suggested changes by the examiner in Claim 2 and Claim 14 during Interview Summary on May 20, 2009, the phrase "an instruction" in Claim 2 and Claim 14 is redundant. Applicant's changes were only to clarify and correct, and do not represent a substantive change(s), and do not change the scope of the disclosure or claims.

The foregoing amendment corrects these errors and puts this application in better condition for issuance. Favorable action is requested.
